Banking,
loan and
insurance.

The total paid-up capital invested in banking, loan, investment and trust, nidhis and chit associations and insurance companies amounted to over R25 crores, of which 34 per cent was in companies registered in the Bombay Presidency, 33 per cent in the Bengal Presidency, 12 per cent in the Madras Presidency and 7 per cent in the Gwalior State. There is a striking contrast between the authorised and the paid-up capital of insurance companies.

Transit and
Transport.

Transit and transport companies accounted for a paid-up capital of over R20 crores, of which R15 crores, or 75 per cent, were invested in railways and tramways. Bombay contributed about R8,45 lakhs or 56 per cent, and Bengal R6,47 lakhs or 43 per cent, of the total capital invested in railways and tramways.

Trading and manufacturing companies accounted for a paid-up capital of R90 crores, of which R14,27 lakhs, or about 16 per cent, were invested in public service companies; R6,88 lakhs in agencies; R5,98 lakhs in tobacco; R4,01 lakhs in engineering; R3,50 lakhs in clay, cement and other building and constructing materials; R3,02 lakhs in iron, steel and shipbuilding; R2,65 lakhs in printing, publishing and stationery; R2,42 lakhs in chemicals and allied trades; and R1,40 lakhs in soap and candle manufacturing. Trading and Manufacturing.

Over one-fourth (R71,54 lakhs) of the aggregate paid-up capital was invested in mills and presses, chiefly for working or pressing cotton, jute, wool and silk. Bombay had nearly 44 per cent (R31,83 lakhs) of the total investments under this head, most of it being employed in cotton mills, silk and woollen mills, and presses. Mills and presses (mainly jute) registered in Bengal had about 73 per cent (R23,27 lakhs) of the capital invested in mills and presses in Bombay. Mills and Presses.

In tea, coffee, and other plantations, a paid-up capital of R12,88 lakhs was invested, and of this amount R10,05 lakhs were held in Bengal, the majority of the tea companies owning gardens in north-eastern India being registered in Calcutta. Planting.

The paid-up capital of mining and quarrying companies was R40,04 lakhs, of which 25 per cent (R10,15 lakhs) was invested in companies registered in Bengal, most of it representing capital invested in coal mines. Paid-up capital amounting to R10,75 lakhs was invested in iron ore and R2,11 lakhs in petroleum companies, the latter working mainly in Burma. Mining and Quarrying.

At the close of the year 1926-27, there were 373 companies limited by guarantee, (including associations not for profit) having no paid-up capital, incorporated in India. Of these, six ceased work, while 28 new companies were registered during the year. There was thus a total of 395 companies at work on the 31st March, 1928. Companies limited by guarantee and associations not for profit.

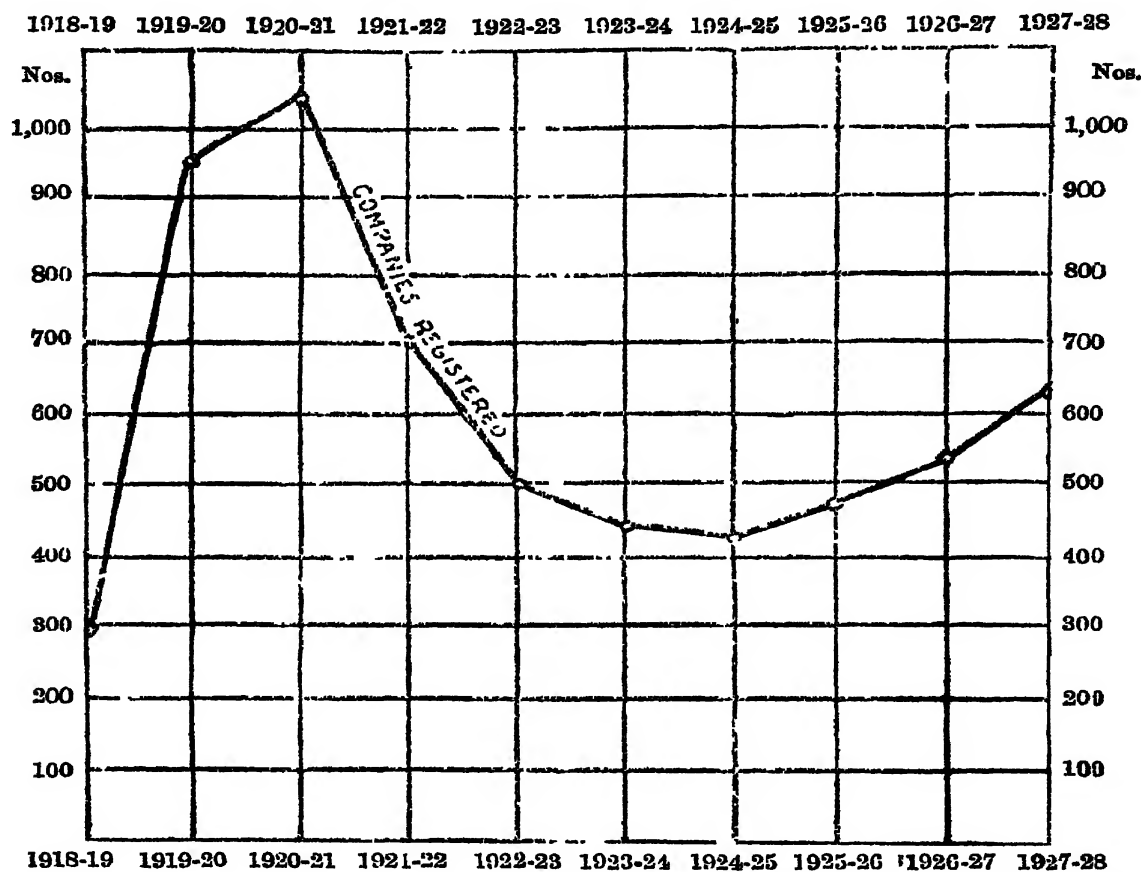

Statistics have been collected, so far as possible, regarding companies which have been incorporated elsewhere than in India, chiefly with sterling capital, but which carry on work in India. The total number of such companies working at the end of 1927-28 for which returns are available was 861, and the paid-up capital thereof amounted to £632,302,000, besides debentures to the extent of £125,690,000. Railways and tramways represented £32,909,000 of the paid-up capital and £38,376,000 of the debentures. Of the remainder, the sterling share capital invested in the tea industry was £26,122,000 and in jute mills £2,834,000. The gold fields in Southern India are chiefly worked by companies formed in the United Kingdom, the paid-up sterling capital invested therein being £1,952,000. It should, however, be borne in mind that in the case of most of the banking and insurance companies and of some of the navigation and other trading companies incorporated outside India, only a portion, sometimes a very small portion, of the capital shown above is invested in India, as these companies work also in other countries besides India, and information regarding the portion of their capital invested in India is not obtainable. Companies incorporated outside India.

The amount of fees, for both registration and copying, realised by the Registrars of Joint Stock Companies in connection with the registration of companies in the year under review amounted to R2,12,000 as compared with R1,92,000 in the preceding year. Fees collected.
